CS 522—Mobile Systems and Applications
Assignment Two—Chat App UI—Rubric

-100: If your name does not appear in title bar of apps

-100: If AVDs do not run outside Android Studio (both client and server visible at the same time in videos)

-100: If APK files not included (must be in **root folder** of submission).

Video demonstrating:

☐ 15: ChatClient: sending messages (multiple chat names)
☐ 15: ChatServer: receiving messages (multiple chat names)
☐ 20: ChatServer: list of messages received (and their senders)
☐ 20: ViewPeersActivity displays a list of peers
☐ 15: ViewPeerActivity displays information about a single peer

☐ 10: Peer class: full implementation of Parcelable

☐ 5: Completed rubric

Note: Chat client and server must be on separate devices!

Output of peer details date not properly formatted: -10%

Output of peer details does not use string resource templates: -10%

Output not properly localized (**all** string literals defined as resources): -20%

Total: ☐
